

SKYLINE ROOFING®

Skyline Roofing®

Skyline Roofing panels feature the look of a standing seam panel with a concealed, through-fastener design. With clean lines and lasting performance, Skyline Roofing panels have long been a top choice for residential roofing.

FEATURES AND BENEFITS

- Less expensive to own over the life of the roof, lasting 2 to 3 times longer than asphalt shingles.
- Cool Dura Tech™ x/ colors reflect heat from the sun, keeping homes cooler and reducing energy costs.
- Limited lifetime warranty when used in residential applications.
- Subtle striations available on 12" and 16" panels.
- Building Code Approval Report: #ER-0309
- Product is UL Class A Fire Rated when installed in accordance with UL requirements.

Striated profiles produced in Salem, OR and available to all locations upon request.

Cool DURATECH XL

COOL Dura Tech™ xl keeps the heat out and the color brilliant.

- Superior color retention and resistance to chalk and fade.
- Dura Tech xl energy saving **COOL** colors reduce the demand for energy.

Premium Colors

Sample color chips are available upon request. Consult your ASC Building Products representative for more information.

NOTES AND COLOR CHART KEY

Not all colors and profiles are available at all locations. All 12" Skyline Roofing colors are manufactured in Salem, OR and available to all locations upon request.

† Please note these colors are batch sensitive (may have color variation) and are directional in nature. Different batches are not to be mixed on projects. We recommend that you request a sample of current stocked material to review actual color before ordering to ensure color accuracy. We are not responsible for color variations.

Oil Canning

All flat metal surfaces can display waviness commonly referred to as "oil canning." "Oil canning" is an inherent characteristic of steel products, not a defect, and therefore is not a cause for panel rejection.
