

SKYLINE ROOFING® *hp*

Skyline Roofing *hp*

**STANDING BY OUR PRODUCTS
AND WARRANTIES FOR 40 YEARS**

Skyline Roofing *hp* is a 24 gauge high performance panel available in durable premium colors. This concealed fastened, standing seam panel is ideal for residential and light commercial roof applications.

FEATURES AND BENEFITS

- Available in our Dura Tech™ 5000 and Dura Tech™ mx colors, which are Energy Star listed cool colors formulated to help reduce the demand for energy.
- Limited Lifetime Warranty for residential applications.
- ASTM E1592 tested for wind uplift performance.
- Skyline Roofing *hp* panel assemblies are Class A Fire Rated when installed on non-combustible deck or framing per IBC or IRC. Skyline Roofing *hp* panel assemblies are also Class A Fire Rated per UL790 when installed in accordance to UL listings.
- Panel evaluated by accredited third party. All structural performance data is contained within an IBC/IRC 2015 code compliance report.

Cool DURA TECH 5000

These Energy Saving Cool Colors keep the Heat Out and the Color Brilliant.

Special Order (Minimum order required)

Cool DURA TECH mx

Energy Savings in long lasting Cool Metallic Colors.

REPRESENTATION OF COLORS MAY VARY DUE TO PRINTING LIMITATIONS. Sample color chips are available upon request. Consult your ASC Building Products representative for more information.

Special Order

† Metallic colors are subject to a price up charge. Metallic coatings are batch sensitive and directional in nature. Minor differences in both color and appearance are normal and to be expected with metallic coatings, as it is virtually impossible to match one metallic coating to another. Due to the coil application process, striations and longitudinal patterning may also show on these products. To minimize the possible visual effects of the normal minor differences in paint and its application, an entire job should be painted at one time. Additionally, fabricated panels, flat sheets, and flashings should be orientated in the same direction for installation.

Oil Canning

All flat metal surfaces can display waviness commonly referred to as "oil canning." "Oil canning" is an inherent characteristic of steel products, not a defect, and therefore is not a cause for panel rejection.

EXCELLENCE IN STANDING SEAM STEEL ROOFING
