REPRESENTATION OF COLORS MAY VARY DUE TO PRINTING LIMITATIONS.

Sample color chips are available upon request. Consult your ASC Building Products representative for more information. Color inventory may vary by manufacturing facility and gauge. Please inquire with customer service for availability.

* Please note these colors are batch sensitive (may have color variation) and are directional in nature. Different batches are not to be mixed on projects. We recommend that you request a sample of current stocked material to review actual color before ordering to ensure color accuracy. We are not responsible for color variations.

NOTES:
 Top values based on allowable stress (ASD). Bottom values based on a deflection limit of L/180.
 "-" denotes that the allowable load is limited by the panel stress vs. deflection limit.
 Steel conforms to ASTM A653 (Galvanized) or ASTM A792 (ZINCALUME) structural steel.
 Tabulated values are for positive (inward) uniform loading only.
 Values are based on the American Iron and Steel Institute "Cold Formed Steel Design Manual" (AISI S100-16).
 Refer to ascbp.com for more complete Nor-Clad performance data.

Gauge	Properties							
	Base Steel Thickness (in)	Yield (ksi)	Tensile (ksi)	Wt. (lbs/ft²)	I+ (in⁴/ft)	S+ (in³/ft)	I- (in⁴/ft)	S- (in³/ft)
