SUNSKY POLYCARBONATE SKYLIGHT & SIDELIGHT PANELS

Features and Benefits:

- Polycarbonate panels are virtually unbreakable, offering up to 20 times greater impact resistance compared to a fiberglass panel.
- Panels retain optical clarity for better than any other glazing material for increased light transmission, while allowing 99% UV protection. UV protection is only on the finished (down-weather) side of the panel.
- Panel profiles can handle extreme climates (40°F to 200°F).
- Easy and safety installed.
- Panel provides highest resistance to wind uplift (UL 580 Class 90) and hail protection.
- All panels come with 10-Year warranty.
