

# METAL ROOFING AND SIDING PRODUCTS

## FLASHING LOCATIONS

ASC Building Products recommends all properly installed roofs include flashings. Visit [www.ascbp.com](http://www.ascbp.com) for installation guides and product details.

**OIL CANNING:** All flat metal surfaces can display waviness commonly referred to as "oil canning." "Oil canning" is an inherent characteristic of steel products, not a defect, and therefore is not a cause for panel rejection.

--------------	--------------

(Subject to upcharge)

Please note these colors are batch sensitive (may have color variation) and are directional in nature. Different batches are not to be mixed on projects. We recommend you request a sample of current stocked material to review actual color before ordering to ensure color accuracy. We are not responsible for color variations.

**REPRESENTATION OF COLORS MAY VARY DUE TO PRINTING LIMITATIONS.** Sample metal color chips are available upon request. Consult your ASC Building Products representative for more information.
