

# FLASHING LOCATIONS

ASC Building Products recommends all properly installed roofs include flashings. Visit [www.ascbp.com](http://www.ascbp.com) for installation guides and product details.

**OIL CANNING:** All flat metal surfaces can display waviness commonly referred to as "oil canning." "Oil canning" is an inherent characteristic of steel products, not a defect, and therefore is not a cause for panel rejection.

**Pitch Required** = Trim manufactured based on roof pitch. Please ensure roof pitch provided at time of order entry.
