Federal Tax Credit for Residential Homeowners

IRS Tax Credit: Qualified Energy Efficiency Improvements – Metal Roofing

ASC Building Products' metal roof products are offered in cool colors listed below and are considered eligible as Qualified Energy Efficient Improvements and qualify for the credit allowed under Internal Revenue Code, Section 25C. Request for applicable credits documented in IRS Tax Form 5695: Residential Energy Credits.

IRS Statement of Eligibility: "Metal or asphalt roof that meets or exceeds the Energy Star program requirements and has appropriate pigmented coatings or cooling granules which are specifically and primarily designed to reduce the heat gain of your home."

Energy Star Program Requirements:

Steep Slope Roofing (> 2:12)

Roofs must have an initial solar reflectance of >= 0.25.
After 3 years, the solar reflectance must be >= 0.15.

Low Slope Roofing (<= 2:12)

Roofs must have an initial solar reflectance of >= 0.65.
After 3 years, the solar reflectance must be >= 0.50.

ASC Building Products' Energy Star Qualified Products:

Steep Slope Roofing (> 2:12)

Low Slope Roofing (<=2:12)

ZINCALUME® Plus
WINTER WHITE

This Manufacturer's Certification Statement can be used as verification that ASC Building Products' metal roof products in the above cool colors are eligible for applicable tax credits identified in the most recent Taxpayer Certainty and Disaster Tax Relief Act of 2019, as well as prior Acts. This tax credit does not apply to any property placed in service after December 31, 2020.

The taxpayer should retain this certification statement as part of their tax records.
As in all tax matters, the taxpayer is advised to consult their tax professional.
ASC Building Products assumes no liability regarding the homeowner's ability to obtain tax credits.
