

The Benefits of Metal Roofs

Long Lasting. Metal roofs may last up to 60 years with proper maintenance and installation. Lasting 2 to 3 times longer than asphalt shingles.

Energy Efficient. Cool metal roofs are offered in a variety of colors, that can save as much as 25% in energy costs.

Safe. Metal roofs will not ignite or support combustion during a wildfire or lightning strike.

Environmentally Friendly. Metal roofs use recycled content and are 100% recyclable at the end of its life cycle.

Durable. Metal roofs withstand extreme weather conditions, including rain, wind, and snow; and have the highest Class 4 hail impact resistance in accordance to UL 2218.

Lower Insurance Costs: Metal roofs with qualifying impact-resistance certification may qualify for premium discounts.
