

# The Benefits of Metal Roofs

**Long Lasting.** Metal roofs may last up to 60 years with proper maintenance and installation. Lasting 2 to 3 times longer than asphalt shingles.

**Energy Efficient.** Cool metal roofs are offered in colors that are Energy Star listed and can save as much as 25% in energy costs.

**Safe.** Metal roofs will not ignite or support combustion during a wildfire or lightning strike.

**Environmentally Friendly.** Metal roofs use recycled content and are 100% recyclable at the end of its life cycle.

**Durable.** Metal roofs withstand extreme weather conditions, including rain, wind, and snow; and have the highest Class 4 hail impact resistance in accordance to UL 2218.

**Lower Insurance Costs:** Metal roofs with qualifying impact-resistance certification may qualify for premium discounts.
